Question: 1

You would like to assign permissions to an external authentication directory group that can create, delete, and update server profile templates. Which HPE OneView role should you assign to the user account?

- A. Server profile architect
- B. Scope administrator
- C. Server profile administrator
- D. Server profile operator

Answer: C

Question: 2

A customer is performing lifecycle management on their existing ESXi cluster. They edit the Server Profile Template for the ESXi cluster.

Edit ESXi on BL460c Gen9 Server Profile ?

Server Profile

Affinity Device bay

Firmware

Firmware baseline managed manually
Service Pack for ProLiant version 2017.04.0
Service Pack for ProLiant version 2017.07.1

Installation Method ☒ Firmware and OS Drivers using Smart Update Tools
☐ Firmware only using Smart Update Tools
☐ Firmware only

Activate firmware ☒ Immediately ☐ At a scheduled date and time ☐ Not scheduled

Connections

Changed: Firmware baseline to "Service Pack for ProLiant version 2017.04.0" **OK** **Cancel**

What will happen to all of the server profiles associated with the template after selecting the "Service Pack for HPE ProLiant 2017.07.1" and clicking OK?

- A. All server hardware associated with the profiles will immediately do a graceful shutdown and boot into Intelligent Provisioning to update the firmware.
- B. The Smart Update Tools will immediately begin to update the firmware and drivers on the systems while the ESXi hosts are still online.
- C. All server profiles associated with the template will be marked as inconsistent with the template.
- D. HPE OneView for vCenter will launch vCenter Update manager to begin updating the systems within the ESXi cluster.

Answer: B

Question: 3

A systems administrator needs to add a VLAN to a network set to support a new application. They have added the network to the upstream switch and the Logical Interconnect Group in HPE OneView but traffic is not passing. What is the most likely cause of the problem?

- A. Intelligent Management Center (IMG) has not been updated via REST.
- B. The administrator failed to update the state change message bus.
- C. The administrator needs to update the Logical Interconnects from the Logical Interconnect Group.
- D. The upstream switch doesn't have the VLAN enabled.

Answer: D

Question: 4

Match the HPE management tools to their function.

TOOL

HPE SUT

HPE OneView Global Dashboard

Composer

HPE iLO

FUNCTION

Provides health status of multiple servers, profiles, and enclosures across multiple HPE OneView appliance environments

Provides HPE OneView management for a Synergy environment

Enables updates to be staged, scheduled, and installed without rebooting the system into Intelligent Provisioning

Provides hardware management of and remote console to a server

Answer:

TOOL**FUNCTION****Question: 5**

Where would you go in the HPE OneView Main Menu to access information about the environment status that can be exported to csv?

- A. Reports
- B. Dashboard
- C. Data Centers
- D. Activity

Answer: A**Question: 6**
