```
```java
int a = 10;
int b = 3;
double c = (double) a / b;
System.out.println(c);
```
```

- A. 3
- B. 3.0
- C. 3.3333
- D. 3.3333333333333335

Answer: D

Question: 9

Which of the following is a valid switch expression in Java SE 21?

- A. `int result = switch (value) { case 1 -> "One"; case 2 -> "Two"; default -> "Unknown"; };`
- B. `int result = switch (value) { case 1 -> 1; case 2 -> 2; default -> 0; };`
- C. `String result = switch (value) { case 1 -> "One"; case 2 -> "Two"; default -> "Unknown"; };`
- D. All of the above

Answer: C

Question: 10

Which statement about the life-cycle of an object in Java is true?

- A. An object's life begins when its constructor is called and ends when it is garbage collected.
- B. An object's life begins when the program starts and ends when the program ends.
- C. An object's life begins when it is assigned to a variable and ends when the variable goes out of scope.
- D. An object's life begins and ends within the same method call.

Answer: A
