Question: 1

Assuming that property impex legacy scripting is set to false and 'Enable code execution' is selected, what are the results of the following ImpEx script?

```
INSERT_UPDATE Book;code[unique=true];name;  
#%groovy% beforeEach: line.clear();  
;book1;Pride and Prejudice;  
;book2; Sense and Sensibility ;  
;book3;;
```

- A. Items "book1", "book2", and "book3" will be inserted or updated, but any leading and trailing spaces in the field values will be ignored
- B. No entries will be updated or inserted.
- C. Items "book1", "book", and "book3" will be inserted or updated. If updated, all their existing property values will first be erased
- D. Items "book1", "book2", and "book3" will be inserted or updated. The name property of item "book3" will be erased, but other properties won't be affected.

Answer: B
